

KLOVE is a very important part of the daily lives of our family. It broadcasts a positive message with encouragement and values that are important in raising our kids to be moral, responsible citizens as well as kind, caring people. KLOVE incorporates what is happening locally with national news. Having such a positive alternative is important to young and old. It is imperative that these stations 89.9, 96.3 and 104.3 not be changed from their current KLOVE/AIR1 formats. Thank you.
